1. Brief overview of this user guide

This guide will help you navigate the e-Services portal from a systems perspective, and is designed to be read in conjunction with the Taxable Person Guide for Excise Tax, in order to file your Excise Tax Returns. It is intended to help you:

- understand the reporting requirements for filing Excise Tax Returns and the related declaration forms;
- understand the processes of declaring goods that require Customs clearance, declaring liabilities that do not require Customs clearance, declaring deductible Excise Tax and all other reporting related declaration forms; and
- understand the icons and symbols included in the forms.

This guide will also assist you in understanding the Excise Tax compliance obligations that a Taxable Person has to comply with, as part of filing his Excise Tax Returns. It provides an overview of the various declaration forms that need to be filed by Taxable Persons in the UAE and how each of these would impact the periodic Excise Tax Returns. It also provides an overview of the additional reporting obligations that Taxable Persons have to comply with and the various forms that need to be submitted on a periodic basis for reporting purposes.

The first section of this guide provides an overview of the Excise Tax Return and the various declaration forms that populate the Excise Tax Return, leading to the calculation of the Excise Tax liability. The other sections of the guide, provide a detailed explanation of each type of declaration form, separated into the ones which create liabilities, deductibles or simply for reporting purposes, and who, how and when should complete and submit each of them to the FTA.

2. Excise Tax Returns Overview

As a Taxable Person registered for Excise Tax, you are required to file your Excise Tax Returns on a **monthly** basis. The due date to file your Excise Tax Returns is the **15th** day of each month.

Generally, when a registered Taxable Person is required to account for Excise Tax, the Taxable Person should submit the Excise Tax Declaration and reporting forms on a transactional or monthly basis as the case may be.

In these forms, the value of the Excise goods and the Excise Tax is pre-populated based on a standard price list published by the FTA. In the event that the Taxable Person identifies that Excise Tax should be calculated based on a higher value (e.g. it is foreseeable that the average retail selling price of the goods in the market is higher than the price published by the FTA), such Taxable Person shall self-declare the tax based on the higher price.

The diagram below shows how your Excise Tax Returns are calculated and which declaration forms populate your Excise Tax return:

Excise Tax Returns form	Box number		Values from declarations/forms
Excise Tax due on the import of excise goods	Box 1	A	EX201 Excise Goods that require Customs clearance - Imports
Excise Tax due on the production of excise goods	Box 2	B	EX202B Producer Declaration
Excise Tax due on the release of excise goods from a Designated Zone (not requiring Customs clearance)	Box 3	C	EX202A Designated Zone Reporting - Release goods from DZ (where there is no customs check)
			EX202A Designated Zone Reporting - Consumption of goods within a Designated Zone
			EX203B Lost & Damaged Declaration when Approved without Waiver
Release of Excise Goods from a Designated Zone	Box 4	D	EX201 Excise goods that require Customs clearance - Release from Designated Zone (requiring customs clearance)
Excise Tax due on the stockpiling of excise goods	Box 5	E	EX203D Stockpile Declaration
Total Excise Tax due during the period		F=A+B+C+D+E	
Total Excise Tax deductible during the period	Box 7	G	EX202A Designated zone Reporting- Enter goods into a Designated Zone
			EX203 Deductible Form component against export, produce, local purchase or errors
Total Excise Tax payable		F-G	

In addition to the above, you will also need to report movements of Excise goods in and out of a Designated Zone ("DZ") that occur within the same tax period, by completing and submitting the forms shown below. However, please note that these forms do not impact your Excise Tax liability and are only requested for reporting purposes.

EX202A Designated Zone Reporting - Transfer of goods to another Designated Zone
EX202A Designated Zone Reporting - Transfer goods for export from a Designated Zone
Inventory - EX203A Import to Designated Zone (where there is no customs check)
Inventory- EX203C Transfer of Ownership Within Designated Zones

For easier reference, please find below a high level breakdown of the various types of excise forms that need to be filed in every tax period, depending on the nature of the activities of the Taxable Person and separated between what creates a tax liability, a deductible or the ones that are only for reporting purposes:

1. **Liabilities:** These are the forms that you will use for declaring tax liabilities. You will use these forms if you are an importer, a producer, a stockpiler of Excise goods, or someone who is releasing Excise goods into free circulation:
 - EX201 Excise goods that require customs clearance (Import Declaration)
 - EX202A Designated Zone Reporting – Release goods from DZ into free circulation (where there is no customs check)
 - EX202A Designated Zone Reporting – Consumption of goods within a Designated Zone
 - EX202B Producer Declaration
 - Inventory – EX203B Lost & Damaged Declaration Approved without waiver
 - Inventory – EX203D Stockpile Declaration

2. **Deductibles:** You will use the following forms if you need to deduct any Excise Tax in your Excise Tax Return, in line with the respective legal requirements:
 - EX202A Designated Zone Reporting - Enter goods into a Designated Zone
 - EX203 Deductible Declaration

3. **Other Reporting Requirements**
 - EX202A Designated Zone Reporting - Transfer goods to another Designated Zone
 - EX202A Designated Zone Reporting - Transfer goods for export from a Designated Zone
 - EX202A Designated Zone Reporting - Import into a Designated Zone (where there is no customs check)
 - Inventory - EX203A Local Purchase Form
 - Inventory - EX203C Transfer of Ownership within Designated Zones

The next sections of this User Guide will help you understand the requirements to complete each of these declarations and forms and subsequently, your Excise Tax Return.

Note: Only products related to the category selected by you during your registration for Excise Tax can be added into the various declarations or forms that you will submit to the FTA. Therefore, if you would need to report additional types of Excise goods via your Excise Tax Return or the additional reporting forms, you should first amend your Excise Tax registration and add the new types of Excise goods before you would be able to report them on any of the forms.

Example: While registering for Excise Tax, if you have selected only “Tobacco and Tobacco Products” in the field “Which excise goods do you produce”, then you will only be able to add items registered under the “Tobacco and Tobacco Products” category from the published FTA products.

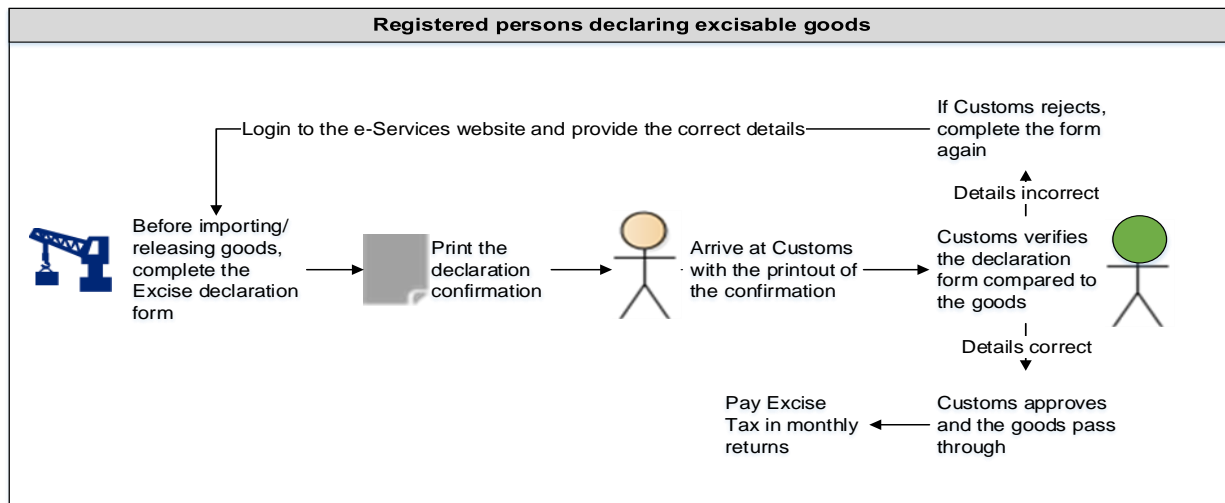

2.1 Liabilities

This section will assist you in how to fill and complete your Excise Tax liability declaration forms. You should use these forms to declare Excise goods that generate a tax liability within a tax period and pay the due tax in the monthly Excise Tax Returns.

2.1.5 EX203B Lost & Damaged Declaration

- **Used by:** Taxable Persons whose Excise goods are lost or destroyed/damaged inside a Designated Zone
- **Frequency:** This form can be submitted multiple times but if FTA requests for Destruction Certificate for any Lost & Damaged form, then you will not be allowed to submit a new Lost & Damaged declaration until the process of Destruction Certificate is completed.
- **Impact:** Positive Tax Liability if Approved without Waiver (Box 3)

When the goods are stored inside a Designated Zone, in some instances deficiencies in stock or shortages in the quantity of goods might be identified by the Warehouse Keeper. In such instances and as an exception to such goods being considered as released for consumption, the Warehouse Keeper has to notify the FTA via the Taxable Person that such goods may have been lost or destroyed/damaged, within 30 days of discovering it. The notification is made by the submission of this declaration by the Taxable Person which the Warehouse Keeper will need to approve. Once approved the declaration form will subsequently be sent to the FTA. The FTA shall review such declarations and may or may not decide to consider such goods as being released for consumption and accordingly will decide whether to waive or not their Excise Tax liability.

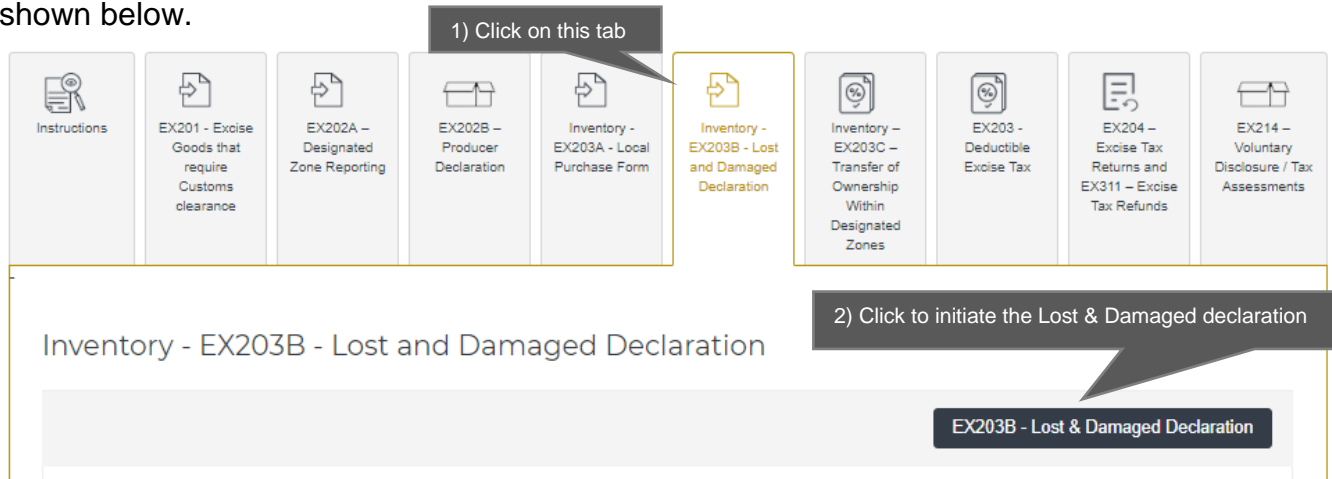

The Taxable Person can declare such goods by submitting the “EX203B - Lost & Damaged Declaration”.

Follow the instructions below to complete your **EX203B - Lost & Damaged Declaration**:

- 1) Navigate to the tab that displays “Excise Tax”.
